

ROK TECHNOLOGIES

We take *your* GIS to the Cloud

Our sole focus is to take the day to day management of your Esri software and its supporting infrastructure off your plate, so you can focus on what you do best, GIS.

> MIGRATION SERVICES

Ready to migrate your cloud environment? Let us help you succeed the first time with a comprehensive migration plan built and executed by our cloud experts.

> CLOUD SECURITY

ROK employs a security team of experts from all different organizations -federal government, financial institutions, and healthcare – to provide valuable insight from a varied background of security philosophies to best fit our client's needs, whatever that may be.

> INFRASTRUCTURE MANAGEMENT

Work with ROK's cloud architecture experts to determine your cloud environment needs. We'll ensure an intelligently-designed cloud deployment and take over the management of your entire GIS Infrastructure.

> SOFTWARE MANAGEMENT

Never wait to upgrade or add additional services. ROK handles all of your ArcGIS Enterprise needs allowing you to focus on what you do best... GIS.

> VIRTUAL DESKTOP SOLUTIONS

We make your GIS data available in the cloud (even legacy desktop), regardless of the software solution. Fast, flexible, dependable secure data stored and hosted in the cloud.

Over 70% of our customers have expanded their GIS and Cloud footprint since moving to the cloud.
